

We're making video conferencing more accessible than ever before!

A cloud-based video conferencing solution, VCme brings your meeting participants seamlessly together.

VCme breaks down the traditional barriers of video conferencing, making pervasive video more accessible than ever before.

VCme brings high quality, enterprise grade video conferencing to anyone joining over any video enabled device, regardless of their location.

Simply select your plan and sign up, download the application to your video enabled device, and you're good to go!

FEATURES:

CONNECT UP TO 8 PARTICIPANTS on any video-enabled device or standards-based room systems into a Virtual Meeting Room

EXPERIENCE INTEROPERABILITY by connecting video room systems, desktops, tablets and smartphones into a single collaborative session

SUPPORT MOBILITY and meet on the go via smartphone or tablet

CLOUD-BASED SEAMLESS CONNECTION from your room system, desktop or mobile device

SCALABLE, PAY-AS-YOU-GROW OPTIONS eliminate the need to invest in costly infrastructure and allow you to say goodbye to maintenance costs.

FLEXIBLE PLANS for Pre-Paid and Fixed Term VCme users

High resolution **MULTI-PARTY** video conferencing

VCme provides a **SCALABLE, RELIABLE AND SECURE** video conferencing solution

I'd rather be with VCme
